

UPSCALE

UPSCALE (Upliftment of Sustainable Communities of Anaikatty Leveraging Economies) is a Social Enterprise aimed at making the Communities of Anaikatty Sustainable in a period of 3 years, thereby supporting the ARCC (Skill development) and other activities of the trust. About a 100 to 120 people from 10 villages are a part of this journey so far in the villages of Anaikatty. We have trained them in a skill and given them job work and continue to take orders to sustain their working. We have had an interesting road with ups and downs thus far. We have about 15 products in hand. A few are still in the research and testing stage.
